December 22, 2022

No. L/N/02/2022-23

N O T I C E

This is for information to all concerned that **One Nation One Subscription (ONOS)** – an initiative by the Office of Scientific Adviser to the Government of India, aims to provide countrywide access to national and international scientific and academic content. The ONOS intends to sign national licenses with most of the prominent science, technology, engineering and management publishers and database producers of the world whose contents are already being subscribed by various institutions of higher education and R&D organizations. This initiative is expected to benefit all research and educational institutions including universities, colleges, R&D organizations, as well as every citizen of the country.

Based on the recommendation of Planning and Execution Committee of ONOS, Core Committee is considering 70 publishers' resources under the first phase of ONOS from the April 1, 2023 onward for all government/government-funded academic and R&D institutions and requested us that renewal of e-Resources from these 70 publishers for the calendar year 2023 may be put on hold till such time that the negotiations are underway.

Under the circumstances, it seems that there may be some problems in accessing most of the e-resources subscribed by us in the first half of the next calendar year (2023). Your consideration and cooperation in this regard will be highly appreciated.

This is issued with the approval of the competent authority.

(Dr. H.P. Sharma)
Librarian (Actg.)
