### Playhub casino

Playhub Casino is an online betting site that is a newly-named clone of Pornhub Casino and its variants. The casino likely has this new name in order to avoid some of the hassle that comes with including the name “porn” in your title, but otherwise is identical to what you’ll find at the more risqué variant.

There is a responsible gaming page on the Playhub website, which includes information on fighting underage gambling as well as betting addiction. The site also has controls such as deposit limits and self-exclusion that you can use should you need them.

The customer support team can be reached through email and live chat, and I found the staff to be more or less average when compared to the competition out there. The team can answer the basic questions you have, but anything more complicated will end up being pushed to management, which will take a bit longer to be resolved.

The casino does protect your information using 128-bit SSL encryption that is the industry standard for security. We only recommend playing at betting sites that use this method to protect your data.

Looking through the terms and conditions, there’s nothing that stands out as being unfair or predatory toward players.

On its face, the banking system at Playhub Casino seems decent, as the site allows you to move money through Bitcoin, credit card, and eWallet. Unfortunately, there have been reports of slow and delayed payments in the past, which is one of the major sins an online casino can commit. There’s also a \$5,000 per day cashout limit in place, which can hinder you if you win big.

### Playhub casino

There’s a good selection of slots, which include the likes of BetSoft, Endorphina, 1x2 Gaming, and more. The games perform well enough, and they look sharp, especially with the BetSoft games, which are deployed in 3D. There are progressive jackpots available, but you don’t want to play them, as BetSoft jackpots have been shown in the past to be virtually un-winnable. There are also mobile slots available, which let you spin the reels on your smartphone.

There currently isn’t a loyalty of VIP program in place for customers, which is a shame.

In addition to standard casino games, Playhub Casino offers a live dealer casino section as well as a full sportsbook to customers.

One casino that does offer a rather unusual gaming experience is the recently launched PlayHub Casino but be aware it is a non GamStop listed casino, so it does not matter if you are on GamStop or not you are always going to be more than welcome to sign up and play for real money.

What I do always advise players to do initially however is to give any casino site they are thinking of playing at for real money a true initially via the demo mode versions of the games on offer, as that way you can get a first-hand experience of their gaming platforms and how their games play and pay but at no risk.

## **Casino playhub**

Having said that though, when you do make what I feel is a wise decision of playing at that casino as a real money player, they are going to look after you well when it comes to bonuses and player comps, so never be under the illusion that you are not going to get your fair share of bonuses as there will be loads of them coming your way.

Another thing that all savvy online players look for and demand these days are lightning fast winning payouts, for no players wants to wait and wait to get paid out their winnings, and with that in mind I am happy to let you know they are a fast-paying casino.

## **Casino playhub**

If you want to play on a mobile device then one other thing to be aware of is that they do have a mobile gaming platform too, please read through this review as by doing so you will find out just what else will be coming your way as one of their players.

PlayHub Casino is another of my longer established approved and accredited non GamStop casino sites and that means you will be in tried and tested hands so to speak if you do decide to give them a whirl playing as a real money player.

## **Casino playhub**

As you will of course want to have some idea of just what is going to be coming your way as one of their real money players, below I have listed the many pros and one of the cons of playing at this casino site, so hopefully this section will help you make up your own mind whether to play there or not

As for whether you will be able to claim generous bonuses, well there is no doubt in my mind you will when playing at this casino site and with a loyalty scheme also in play even if you choose not to claim any bonuses you are always going to be earning plenty of extras based on your level of real money gaming action no matter whether you win or lose.

## **Casino playhub**

Do you have a passion for playing different casino games? Well, if you do then there is no doubt in my mind that as soon as you start playing either via the online instant play gaming platform or via the mobile casino app available from this casino you will find more than enough casino games to get stuck into playing for sure.

Make sure you check out the current values attached to the progressive games by the way as there are some life changing jackpot s up for grabs on those games, and there will be loads of card and table games, more than enough video poker games and a while host of slot machines for you to get stuck into playing as well.

## **Playhub casino**

I want you to have the best gaming experience possible and that is why the casinos for GamStop users that I have listed and reviewed are the top-rated ones that guarantee you a fun and exciting time. I have also listed the best poker sites that are not on GamStop so you will have plenty of choice as a poker player and slots for GamStop users do tend to offer high payout percentages by the way.

PlayHub Casino have been around for many years now and one of the many benefits you will have coming your way as one of their real money players is that they are always going to process your winnings and send them out to you in the fastest possible way so do keep that in mind.

## **Casino playhub**

As for just what payment methods will be available to you to put some funds into your real money account at that casino site, well you will find you can top up your account at any time of the day or night using the following methods: Skrill, Mastercard, Neteller, Visa, Maestro and PaySafeCard.

A friendly bunch of support staff are on duty at this casino site 24 hours each day of the week, and therefore if you have any questions about anything in the casino or any aspect of any of the many games then simply get in touch with their team who are always there to help answer your questions quickly and with the minimum of fuss.

## **Playhub casino**

There is a lot to be said about only every playing at licensed and regulated casino sites as by playing at such sites, which by the way this casino is one of them, you are always going to have the peace of mind in knowing everything is above board and the games are fair and random so always remember that when choosing a casino site at which to play.

I have always been fond of playing at PlayHub Casino, and one thing that does impress me the most about that casino site along with their mobile gaming platform is that they have spared no expense to ensure they cater for all levels of player including those seeking out a non GamStop casino site at which to play at.

## **Playhub casino**

Are you looking to play casino games on any type of touch screen mobile device such as by using your smart phone or perhaps a tablet device, well if that is the case be aware that in addition to the instant play online gaming platform on offer at this casino site they do also have a mobile gaming platform too.

But it is fair and true to say that no matter how you choose to access their range of casino games you are going to find more than enough of them available on both playing environments to keep you busy and entertained and there will also be plenty of bonuses waiting to be claimed if you do sign up as a real money player.

For those of you on the other hand that are eager to play real money casino games at a site that will give you plenty of comps based on your gaming action, well two casinos that are also worth checking out due to their fabulous loyalty schemes are Box 24 Casino and Miami Club Casino.
