I never take the time to do this, and never thought I would for a play store casino app, but my conscience would not leave it alone. Most if not all slots-centered, casino-like, apps in which you pay to play by buying their in-house money or chips, are pretty aggressive in their tactics to get you to make purchases, and in some, yes I've tried a few, your luck is kinda dictated by those purchases. Now I have to say that if there was one app, I feel has worked HARD to earn those in-apps is this one. This is, by far, not only the most fancy, entertaining, fun, story-driven, bonus-packed, and what seems to me, very fair and appreciative of the time you put into, whatever pandemic or convalescence the reason behind it. Now, the reason I discovered it and the one I'm most appreciative about is how, they've kept someone, who is endearing to me, was at some point very much obsessed with real life casinos, and so on. Now she's gotten over that and her health prevents her, in part, from going back to that life in which "fun" became "excess" and "addiction", and this app I guess helps feed that hunger a bit, but in a harmless and hopefully, little by little, will help her make the transition to these types of casinos. So yeah my two cents, I'll be making a purchase soon and every so often if only because they didn't push me as hard or at all, and to say, in a way, thank you.

I first rated this game for 5 stars. It's a great game and I definitely purchased my share of coin and extras to keep playing. As I played on, I found a major flaw ! Your bet amount would sometime change without your knowledge ! Let's say, you set your bet amount at 5,000 coin and start to play and the next thing you know, your out of coin, in a few spins. Can't figure out what happened till you look at your bet amount and it is now set at 30,000 or 50,000 coin without you changing anything !!! This happened more as I got further in the game. Would like you to address this problem !!Thank You and also Sorry !Hello out there ! Playing this game again after looking for something else. The reason I'm back is, I could not find a better game. This is one of the better games out there. It's addicting !! I can't say that the problem I first had with this game is totally gone, but it has improved a lot. Still happened once or twice to me, but you need to pay attention to the game. Once again, definitely a 5 star game. Everyone have a good time playing and happy holidays to ALL !!!!!

Caesar casino online bonus code

I've been playing Caesars for a few years now. I've had at least a good ten casino apps on my phone through the years and have played at about 20 other casinos on line. I have played some where it's win win win. All the time. Others where there are too many interruptions to buy coins or to download other apps or you have to watch constant videos forced on you to receive coins. And then there are the casino apps where they have all these Inter-connected games and tasks (which is fine as long as they don't over shadow the actual slot games you are playing) that are too much.

They give a minute of slot play and 5 mins of tasking. The point is that I no longer play at any other casino except for Caesars. I think it is the very best of all of them. Everything is well balanced and the side tasks are structured perfectly so they add excitement to and not take away from your slot play. I think I am at the Gold Status Level now. It's taken me a long time to get there and there are still 3 or 4 levels ahead. They don't make anything too easy. It's a thinking players site but not overly complex. After all this is entertainment. They know when to give it and when to take it away if you are not careful. So it's always exciting and yes sometimes frustrating but that's why it's so much fun. I've played sites where u just keep winning and you can't lose even if you try. That is boring. For me Caesars is the BEST.
