Being a smart player on the upcoming Kansas betting scene involves finding multiple promotions and making good use of them. When it comes to potential upcoming Caesars Kansas promo codes, Kansas bettors can currently get up to \$1,250 on the house if your first bet loses.

Caesars Sportsbook Kansas is offering new Kansas bettors a first bet of up to \$1,250. Additionally, new users will get 1,000 Reward Credits, and 1,000 Tier Credits. This offer will only be valid for your first deposit and bet, and it's different than a deposit match or a no-deposit bonus.

Cesers

You'll have to make a bet with money you deposit, and if your first bet loses, you'll be refunded with a free bet depending on how much you wagered, up to \$1,250. For example, if you wager \$200 and lose, you'll be refunded with a \$200 free bet. If you wager \$1,250 or more, you will be refunded with a maximum of a \$1,250 free bet.

The promotion is available for any new account holders. It's one of the best offers and has no playthrough requirements. All you need to do is win or lose. If you win, nothing is lost. If you lose, you get your money back.

Another huge benefit to signing up with Caesars Kansas that players can look forward to is the rewards program. We'll detail it in more depth a little later on, but you can earn Caesar's Reward Credits with every single bet you place. Caesars often fixes this rate at 1 Reward Credit for every \$5 on potential profit (that means your bet doesn't have to win), with a maximum rate of 2 Reward Credits for every \$1 bet. The nice thing is these credits are flexible — you can use them for a lot of things within the Caesars hospitality empire — but more on that later.

Caesars

Reward Credits are accumulated over time, and can eventually be redeemed for incentives and perks such as free bets, hotel stays and much more. Tier Credits are added up and never go away, and the total number of credits determines if you advance to higher Tiers within the Caesars Rewards program. The higher the Tier, the better the benefits.

In addition to these year-round promos for Caesars Sportsbook Kansas, be on the lookout for unique offers, including free NFL jerseys and gas cards. Sports-specific offers, such as their current "Bet \$20, Win \$100 If Your Team Wins" MLB promo, will be readily available.

Caesars Rewards are unique because you can earn credits that go beyond the sportsbook. As you earn Reward Credits and Tier Credits, you can transfer them to your Caesars Rewards account and redeem them for casino play, hotel stays, dining, entertainment, shopping and more at any Caesars Rewards destination.

The rewards program works by offering you 1 Reward Credit for every \$5 of potential profit on every bet you place (this is capped at 2 Reward Credits for every \$1 placed, but your bet doesn't have to win to reap the rewards). For example, if you bet \$10 to win \$40, (\$30 profit), you would earn 6 Tier Credits and 6 Reward Credits. Caesars Sportsbook Kansas bettors will be able to bet on pro sports, worldwide sports and much more. Additionally, if Kansas sports bettors want to bet on college sports, such as Kansas Jayhawks, Kansas State Wildcats football and basketball, or Wichita State Shockers basketball, they will be able to do so.

Here are some of the most common types of wagers across all sports you will be able to place when using the Kansas Caesars Sportsbook app or website.

Cesers

Moneyline bets are as simple as they come for prospective Kansas bettors. This wager is dependent on which team or individual wins or loses a game, match, or other sporting event. Whether you want to bet on the Chiefs, Jayhawks, or any other team or individual, there is no spread involved. You simply need a victory for your bet to cash.

When betting a point spread, the wager is decided by the total number of points, goals or runs a team wins or loses by. The Royals may be -1.5 in a game against the Chicago Cubs, meaning you would need them to win by 2 or more runs for your bet to win. The Kansas State Wildcats could be +3.5 in an NCAA football game, meaning if they lose by 3 points or less, or win the game, your bet wins.

Cesers

An Over/Under totals bet means you are guessing how many total points, runs or goals are scored. If you take Over 44.5 Points in a game between the Kansas City Chiefs and Denver Broncos, you need both teams to combine for 45 or more points for your bet to win. If you bet the Under 44.5, you would need 44 points or less to be scored.

When placing a parlay bet, a prospective Kansas bettor will combine multiple wagers together, increasing the overall potential payout. For example, if you bet on the Royals to win, the Kansas Jayhawks football team to cover the spread, and add an NFL, that would be a 3-leg parlay. When betting parlays, it's important to remember that all "legs" of the parlay must win for your wager to win. If just 1 leg loses, the entire wager loses.

Cesers

Proposition wagers, or prop bets, involve betting on specific statistics for individuals or teams. For example, if you want to bet on a Royals player to hit a home run, or throw a certain number of strikeouts, these would be considered props. You can also bet team props, such as the total number of touchdowns the Chiefs will have in a game, or the total number of points the Wildcats will score.

A futures bet is a long-term wager on future events, such as the eventual Super Bowl champion, the NCAA Final Four winner, or other sporting event titles. Futures wagers can also involve individual player, such as betting on Patrick Mahomes to win the NFL MVP Award.

In the next few sections of this Caesars Kansas online sportsbook review, we're going to take you through some of the nitty-gritty aspects of the operator, from software to banking, to customer support and safety.

People tend to have good things to say about Caesars software, and for good reason. Caesars Sportsbook uses its own betting platform. This is unique in that many other operators lease software from a larger company, like Kambi, and place their own skin on it. PointsBet Kansas is another operator that uses their own proprietary software. The benefits of proprietary software are many.
