BetMGM Casino has a dedicated app that is available for both Android and iOS devices. Players can download the app from the BetMGM casino website or if you have an iOS device from the App store. The app is now also available in the Google Play Store but not in all states yet.

The MGM casino runs both a mobile site as well as a separate downloadable mobile casino. The mobile site lets you access both the casino side of the operator and you can also use the BetMGM sports set up too. We should point out that you only need 1 account with the operator to play in the casino, bet on sports, or try a hand a poker.

One of the most positive aspects of the BetMGM Casino mobile app is that the vast majority of the games available on the main casino website are also available to play on mobile. Most of the games are slots, including several jackpot slots and new titles. The table game offerings, including video poker, is less comprehensive. There are two NJ roulette games, three blackjack games, and three video poker variants; Bonus Poker, Jacks or Better, and Double Double Bonus Poker. We were delighted to discover that some Hold'em and live dealer games are available to play on mobile, which is a great plus.

The casino has updated and improved its mobile offering in 2019, and the results are impressive. When the app first launched, there were complaints about slow loading times on even the basic MGM games, and a lack of features. However, since then, those issues have been addressed, and there are now account management and lobby features as well as fast loading times.

One of the best features of the MGM casino app is that players can access the online casino and sports betting from a single platform. Additionally, the casino, sportsbook, and BetMGM poker all share a single wallet. However, poker players will be required to download separate software and poker app if they want to play. The BetMGM mobile casino is a fantastic option for players who wish to gamble on the go, with a vast game selection and well-designed features.

The design of the MGM mobile casino app is very pleasing to the eye. It's simple to use and with only one main menu, you certainly won't get lost. You can access Poker from the operator, see the promotions, and access sports from the footer menu. There is a sub-menu at the top of the page that lets you navigate your way around the game types including New Games, Live Dealer, Table Games, Exclusive, Slots, Jackpot Slots, Slingo, Virtual Horse Racing, Virtual Soccer, Virtual Sports betting, and other MGM Slots.

The mobile setup is excellent and provides some real competition to NJ's most popular mobile casino from Golden Nugget Online Casino.

The online casino from MGM is only available in a handful of jurisdictions currently. They do have plans to offer the casino in more states as they go live. Currently, you can play online in the following states:

If you are trying to play at the online or mobile casino and seeing the phrase geolocation and thinking what is this all about? Well, this is the player location check that online casinos need to do to prove you are in a legal state. If you are accessing the casino on a laptop, then you may need to use a geolocation plugin, such as GeoComply, to confirm where you are. Most of the time this works well, but other times you may have an issue and see a Geolocation error such as we cant confirm your location.

On a computer, you can turn geolocation on by using a plugin, but even then, you may still have problems accessing MGM online NJ. Your internet provider may have your IP listed wrong, especially if you are near a state border. You can bet sat in Norwood and be listed in NY. If this happens, you will need to contact your service provider.

New players who create an account at BetMGM casino are eligible for two welcome bonuses. First, players can receive free money just for creating a BetMGM account. Additionally, if you deposit a minimum of \$10, you will get a 100% matched deposit bonus. We have encountered hundreds of casino bonus offers in our time, and this is one of the most generous we have come across. It's the exact same bonus that used to be available at the old PlayMGM Casino.

One of the great things about these free sign up bonus offers is they are not complicated. All that is needed is to register an account at BetMGM online casino, and \$25 will be instantly added to your account. These bonus funds are subject to a 30x playthrough requirement on slots and more on other casino games before they can be converted into real money. Although this is quite a steep wagering requirement, the fact you receive this just for registering for an account is still very generous!

The bonus funds players receive from the 100% matched first deposit bonus can be converted to cash once you earn 6x the bonus amount in iRewards points. iRewards is the BetMGM loyalty program (more on that later). This deposit bonus is valid for any amount up to \$1000, with the minimum deposit required \$10. Moreover, you must place your initial deposit within five days of creating your BetMGM account.

These BetMGM casino bonus offers are a fantastic way to attract new customers. Players can also get instant access to these bonus offers by creating an account at betmgm.com/casino.

Similar to the online casino offerings from Caesars online Casino and Unibet Casino, this no deposit NJ casino bonus is a great way to try the operator before having to put down any of your own cash. There is no BetMGM bonus code required to claim these offers.

Players who enter the BetMGM casino signup promo code will receive \$25 free with no deposit needed when they complete their account registration. Furthermore, they will also get a 100% matched deposit bonus offer of up to \$1,000, making this one of the best bonus offers from any online gambling platform around.

Just sign up for an account and use the BetMGM Casino promo code GAMBLESUSA and you will see the \$25 in your account straight away. It is one of the best free-play online casino signup bonus offers available.

As more online and mobile casinos appear all the time, different platforms need to ensure they are offering something unique to stand out from the crowd. MGM Casino has done an excellent job of this, offering players numerous features that make for an enjoyable gaming experience.

When you visit the desktop site, everything is clearly labeled, which makes navigation simple, you know where everything is. You will be able to access clickable links to all of the different types of games available at the top of the homepage.

In the middle of the homepage, you will notice the main lobby, which is broken down into several categories. There will be featured games, trending games, as well as links to live dealer games options and jackpot slots. All of the categories have expandable links, which allows you to view all of the available casino games from that category.

At the bottom of the page you there are several helpful links and additional information. There are also links to all of the physical casinos in the MGM portfolio. When we explored the online casino as part of our review, we felt they had done an outstanding job of integrating its online site to the MGM brand. One example of this is the fact that players can redeem their online points for express comps at any MGM resort, such as the

Borgata in Atlantic City.

Overall, the BetMGM casino Android and iPhone app, and website offer a user-friendly platform providing a smooth and enjoyable experience.

The casino at BetMGM has a massive amount of games in its portfolio. There are over 500 games available in total, including progressive slot titles that offer large jackpot prizes. The operator has worked with some of the best providers in the industry, such as NetEnt, IGT, Konami, Barcrest, and SG Interactive.

Slots make up the bulk of the BetMGM casino app and regular desktop site games lobby. Players can choose from hundreds of titles, and the MGM casino app is adding more all the time. There is a wide range of different slot types available, including bonus games, penny slots, and more. Some of our favorite slots are on offer, including Cleopatra, Zeus III, and Super Monopoly Money. There are also some exclusive standard slots available at this online casino. Most of these games are penny slots with low minimum bets, starting from around \$0.10.

The casino has a fantastic range of BetMGM slots available. Most online casino sites have a limited selection of these types of games, but BetMGM has over ten, with some offering prizes consisting of millions of dollars. Some popular progressive jackpot slots available at MGM online casino include:

Divine Fortune has huge jackpot prizes available if you are feeling lucky. If players enjoy playing the games that offer the big bucks, you will not be disappointed with the options available on the BetMGM casino app. To find out more about playing slots online, you can read our slots playing guide.

BetMGM's mobile casino site and the app offer table games covering all of the categories you would expect from an online casino, but the variety isn't huge. There are some Android blackjack and mobile roulette variations, with only one mobile Baccarat option. The blackjack titles on offer at BetMGM are:

While there are at least some table games available for players, we would like to see the online and mobile casino increase this number to offer more variety. MGM roulette games are really fun to play and excellent on both the mobile site and regular desktop site. New casino games online and mobile apps are being added quite regularly so there is always something new to play.

Fans of video poker will be pleased to learn that there is more variety in the titles available here than in the table games section. The video poker games available at BetMGM casino are:

To access the available video poker titles, you can click the 'table games' link at the top of the gaming lobby.

Live dealer games have grown to become extremely popular in online and mobile casino play. Most operators have a real-time streaming video link that brings a casino floor directly to you via your mobile device or laptop. There is no need for random-number generators to determine the outcomes of live dealer games. Players can view the actual cards because they are dealt by a human dealer and also watch the roulette wheels spin in real-time.

Some live dealer games available on the BetMGM Casino app include Blackjack, Roulette, and Baccarat.

We would hope to see BetMGM increase the number of live dealer offerings in the future. For now, there is an adequate live casino section for players to enjoy. There is an impressive list of games available to play instantly with no need to download any software.

MGM casino runs online promotions all the time with some more appealing than others. Some of the promos available range from loss-back offers to deposit matches. The operator tends to refresh the promos they offer every month, so it's well worth keeping an eye on their promotions page.

Loyalty is rewarded at BetMGM, and the online casino offers personalized promos where players can get additional free play offers based on their recent activity. Gambling in NJ has been popular for many years and with exciting casino games online, it's only going to get more popular.

Whether you are playing at the BetMGM Michigan Casino, BetMGM WV, BetMGM Casino PA, or BetMGM New Jersey, you will be eligible for BetMGM rewards. When you have signed up for an MGM online casino account, you are automatically enrolled in the iRewards loyalty program. To break it down, players earn points depending on how much they play. You can quickly build up points by placing wagers on slots, video poker, and other games. Borgata customers can also use the loyalty program as well.

There are three different ways you can redeem these points as outlined below.

Additionally, once you have completed the registration process with MGM, you are automatically enrolled in the iRewards Loyalty Program. This scheme is a multi-tiered VIP scheme which is utilized by many casino operators. The principle behind this is that the more you bet, the higher you climb and the more points you earn. Each different level offers unique benefits and perks.

As you build up your points total, you can redeem them in categories, including online store items, bonus dollars, and cash and comps at MGM Resorts properties. Please be aware that you cannot redeem points on the mobile app; you need to be on the main casino website. There are also no points available for betting with the sportsbook.

MGM Rewards is among the best loyalty programs of any casino globally. You could be playing slots at the MGM Grand Detroit or playing a table game at home all while collecting those BetMGM rewards points.

When it comes to online iGaming and real money, there is a lot of potential there for fraud and deception. Consequently, you should only sign up and play at licensed and regulated gambling websites that have a trustworthy and reliable reputation. The best way to determine this is to look on the platform for a license issued by a government regulatory institution.

The minimum deposit amount is set at a low \$10, making it one of our favorite minimum deposit NJ online casinos. As BetMGM casino grows, we expect to see more payment options introduced to their cashier section. Please note that not all of the options are available for both a deposit and withdrawal.

Withdrawals are handled in a timely manner and making a withdrawal at the BetMGM casino is very easy. If you can make it to Atlantic City, the quickest option is via the cashier window at the Borgata Casino. We know this isn't possible for everyone, so there is a range of other options available.

The casino is one of the fastest NJ online operators when it comes to paying out your winnings.

If your matter is urgent, we recommend using the phone helpline or live chat options as you can be speaking to a customer service agent in minutes. As part of our review, we found the live chat feature suitable; however, finding the relevant help pages at BetMGM takes a bit of time, and we would like these to be more accessible.
