Betsson is working with the standard iPoker rake model, which is good, but not great. Micro cash games are taxed at 6.67% – quite high, but with a cap of only 50 cents. The higher limits have a lower rake percentage (5%), but significantly higher caps. All stakes past NL50 are capped €4 which is more or less industry standard these days. It is noteworthy that games and caps are in Euro and thus slightly more expensive than games which are played in Dollar (since 1 Euro is worth more than 1 Dollar).
