A guide to choosing the best time of the day to play slots online and in land-based casinos. It's about the best odds, jackpots, and comfort levels!

Slots are available 24/7 and can be played on a bright casino floor or in the comforts of your home. While players have the option to spin the reels anytime they want, there are periods when slots are worth tackling.

In this article, we provide the right time to spin the reels for your benefit so you can improve your strategy at slots and don't get tricked by waiting for the "best hour to play slots" (surprise surprise, it doesn't exist!).

The best time to play slots in an online casino is when you notice an attractive jackpot. This is because each wager and each spin have a large potential value. The likelihood of winning at online slots is not influenced by the time of the day.

## Time best to online play slots casino

You can enjoy online slots when you have an extensive amount of free time. RNG algorithms among all online casino games stay the same no matter what time of day you pick to play. A majority of online slots have interactive bonus modes and you want to focus on them without getting disturbed. You want to avoid anyone disturbing you as you make the right choice or move to get the best possible slot machine payout during a bonus mode.

Paydays are also a good indicator of when to play, ideally, a day or two before your salary comes in. Imagine spending all of your disposable income in one sitting on payday, players tend to feel dissatisfied with the outcome when they have to wait longer to play again. On the other hand, losing your disposable income a day before replenishing your bank account should soften the blow.

Weather is another factor to consider when playing slots among US online casinos. You do not want to be on the verge of a massive payout while a thunderstorm or blizzard is raging in your area. Anything threatening to cut the power and broadband to your house can ruin exciting moments such as matching five wild reels in a 5-reel slot.

The best time to play slot machines at a casino tends to be when the casino floors are quieter and less crowded. You have more options to choose from and fewer distractions. The chances of winning at slots are not influenced by the time of the day or the day of the week.

Two goals are to be considered when you want to play the slots at any casino:

## Best play to online time slots casino

Slots with a wide network progressive jackpot will have a staggering amount of bets collected during periods when crowds gather on the casino floor. If you are looking for a shot at a massive jackpot, visit the casino floor during the afternoon or evening. Around this time, guests are done visiting the attractions of the city or conference they attended and are likely to be spinning the reels.

For the other goal of playing a popular slot game, consider playing after midnight or early morning when the crowds have gone home or back to their rooms. You want fewer people on the casino floor if you just want to play one or two specific games. Popular ones that offer exciting payouts, interactive bonus features, or have an interesting theme tend to draw a large queue.

Take note that every physical slot has the same RTP and variance rate at any time of the day.

Rumors about slots becoming loose or tighter at certain periods of the day are not true. With that in mind, take into account the crowds to determine when to play physical slots.

The best time to play slot machines in Las Vegas is in the early morning when the casinos are emptier. Remember that your odds of winning at Las Vegas slots are not influenced by the time of the day.

Play the slots after taking in what Las Vegas has to offer since Sin City is one of the major gambling and entertainment hubs in the US. Anyone who immediately hits the slot after checking in is missing out on so many things that make the city unique. For example, the MGM Grand, T-Mobile Arena, and Planet Hollywood Resort and Casino host concerts, magic shows, major boxing matches, and much more.

Being an entertainment hub, Las Vegas has a rich selection of attractions unique to the city. One example is the gondola rides within the Grand Canal Shoppe where you can experience a taste of Venice without leaving the US. Are you bringing your family with you? Las Vegas' The Adventure Dome offers several rides and attractions that will keep everyone entertained.

Las Vegas gives you plenty of opportunities to play the slots anytime and your chances of winning stay the same no matter when you spin the reels. You can even find them at their airports where it is available for you when you arrive or while waiting for your flight. Playing the slots after getting a large helping of everything that makes Las Vegas great is a perfect way to get the most out of your visit to Sin City.

Digital slots among US and UK casinos do not have any means to consider the time when picking the symbols in each spin. Every modern slot's RNG ensures a game gives out the same results at any time of day.

Certain casino platforms and cabinets allow operators to change the RTP of their slots anytime. It is important to note that operators cannot announce the RTP rate of their games on their page and adjust it without notifying their players. Otherwise, they can get in trouble with their local regulation office.

## **Best casino time play to slots online**

This should be when the time is convenient for the player such as having as much free time as possible to enjoy any slots available. Players should also consider the crowd when choosing the right time to visit any casino floor.

Slots that have the highest possible cash prizes are progressive jackpot slots due to their mechanic of collecting a small portion of players' bets for the massive cash prize. It is important to note that progressive slots have the same jackpot prize or payout rate at night and day.

Las Vegas is a tourist attraction, full of shops, restaurants, clubs, and other locations that would make for an interesting nightlife. First-time visitors should consider visiting the many tourist spots in the city before thinking about spending most of their money on the gambling floor.

Online and physical slots are consistent with their PRNG where the RTP and variance do not change. However, you can get the most out of your slot play-through or get a satisfying experience when you play them at specific times of the day.

Since 2001 we have been playing and testing thousands of slot machines online. So we decided it was time to make an all-time top list with the 30 best.

After much deliberation, we have narrowed down a list of the best 30 online slots ever made. Because we didn't want to leave you with only a slot name title, we have added a short description of each slot machine. In our opinion, all the below deserve their 'Top 30' status.

It was not easy to make the top list below. It was one of the most challenging tasks since we started OnlineCasinos.net. Because there are so many good slots online, it was also challenging to cut the top list of nominees down to only 30. So in the future, we will extend the list to 50 as we had to leave some excellent slot games out. Furthermore, many new slots are also released each month.

Our experience with online slots goes back over two decades. We were there when online slots first hit the internet's wires, making their way to people's home PCs. We have seen all the technological changes the online casino industry has made. From PCs to iPods, smartphones to tablets, and beyond. Our team of avid slot machine fanatics have been there, done it, and bought the T-shirt.

We have tried every bonus round, new feature, free spins, progressive slot, from 1 way to 1024-ways win slots. Our team of slot pros has tried and tested every new idea released by the online slot industry.

There is nothing we do not know about playing online slots. But we all have our tastes about slot features and themes. So if you feel we missed out on your favourite slot during this review, we apologize.

Yet, if you see slots mentioned here that you have not yet tried, we urge you to try them. You never know; we might surprise you by introducing what could be your new favourite online slot!

Wild Toro is a popular name in the Elk Studios collection and you can see the first version below. The original game became an instant hit with its fun theme, great visuals and lucrative bonus rounds. So the designers decided to treat us with a superb new sequel to this slot machine. The Wild Toro 2 is a new top online & mobile slot from 2022. It is so good that we have voted the best online slot machine ever made.

As you can already guess, the slot follows the same theme as the original. You'll witness firsthand the mischiefs of the red Bull and the Matador. For this game, the designers went with a 5x5 grid, offering 259 paylines. The bet size is pretty standard, ranging from \$0.20 to \$100 per spin. The game has an RTP value of 95% and a medium to high variance.

As in most other slots, the most lucrative part of the game is the bonus features. Wild Toro 2 doesn't disappoint in this section as it offers four exciting bonus features:

Online Slots don't get much better than this — Congratulation to Elk Studio for making the best online slot ever.

Nitropolis 3 Slot is the latest and super fun to play addition to the Nitropolis franchise.

After a close showdown with sergeant Nitro Wolf in the previous slot versions, the gang had to flee town in a hurry. They found a nice spot down south where they got to their mischievous lifestyle.

## **Time play slots to online best casino**

As you might expect, the slot machine has an original design and great bonus features, and the gameplay is exceptional fun. It comes with 6 reels and 4 rows, which can expand up to a maximum of 8. The bets start at only \$0.20 and can go up to \$50 per spin. The top payout in the game is set at 50,000 times the total stake.

Base play comes with big symbols. Covering up to a 4x4 grid, an avalanche mode, Wilds, Both Ways Pay, and Nitro Reels Re-spins, making it

exciting to play, as payouts can be huge. Land 3, 4, 5, and 6 bonus symbols to get 8, 12, 16, or 20 free spins. Trigger the feature with a Super Bonus symbol to start playing with 8 rows high, and Both Ways Win. Needless to say, the super bonus free spins are where the biggest payouts can happen and where you can see the full potential Nitropolis 3 has.

We all here at OnlineCasinos.net love to play the Nitropolis 3 slot machine, and it was not hard to agree it should be in the top 3 of the best online slots ever. Whoever designed this game at Elk Studio deserves a raise because it is such a fun game to play.

The 3rd slot on the top list is the most popular online slot of all time and one that is always busy at the online casinos. Starburst by NetEnt is a fantastic 5-reel, 20 pay line video slot with an RTP of 96.09% and wins payout both ways. Most of its popularity is down to its low variance, which means regular payouts and plenty of entertaining action.

Starburst has been designed with a classic feel but with stunning graphics, and its popular bonus feature is that of the expanding wilds. These can land on any of the 5 reels, and when they do, they will expand to fill the entire reel. Not only that, when these expanding wilds land, they will lock the reels they landed on. You will then be given free re-spins on the remaining reels, where any new winning combos will be paid out accordingly. Furthermore, the expanding wilds can be retrIGGERED up to three times in a row, giving you chances of huge payouts.

Pragmatic has released several great online slots lately, bringing many loyal players. The best one, without a doubt, is The Dog House Megaways Slot. With 6 reels, 7 rows and 117,649 ways to win, this slot can produce payouts of over 12,000 times the total stake. This enormous payout potential is the main reason why many players give the game a try.

The Megaways mechanic itself can bring hefty payouts since there are so many winning combinations. To trigger the free spin feature, you need to land 3-6 Scatters on the reels, or you can use the Buy Bonus button for a price of 100 times the total stake. Depending on the number of Scatters you get, you are rewarded with 7 to 20 free spins with up to 7 Sticky Wilds on each reel. If you choose the Raining Wilds feature, you can win up to 30 free spins with up to 6 Wilds on each spin. The best part of the free spin feature is that the Wilds can come with an x2 or x3 Win Multiplier attached. The Dog House Megaways is real fun and exciting online slot with many fans, and it deserves a 4th spot on the 30 best online slots list.

It is not often we get a new slot in the top 5, but the new slot from Yggdrasil Age of Asgard deserves a prime spot.

It is a 5 reel with up to 50 paylines. Age of Asgard online slot offers wilds, different types of free spins, and fun clash features. If you play max bet, the slot machine can pay up to a whopping \$488860. You can bet from \$0.20 to \$200 per spin.

Age of Asgard is an exciting and fun 2-in-1 slot machine concept!

Age of Asgard is, in our opinion, the best online slot that was made in 2019, and it's getting spot five on the best online slots ever.

Created by Play'n GO, Legacy of Egypt is another game revolving around the hugely popular theme of ancient Egypt. Reels populated by symbols such as scarabs (wilds), pyramids (scatters), queens, and pharaohs are complemented by exciting music that rounds up the atmosphere.

Legacy of Egypt features 5 reels and 30 paylines with symbols stacked on the reels, creating possibilities for some big wins. However, in the bonus feature, this slot shows its full potential and where you have a chance to win really big.

The bonus is triggered by landing three pyramid scatters anywhere on the reels, and players can win up to 20 free spins at the start of the feature. On every spin of the bonus, a random multiplier between 2x and 10x is applied to all wins on that spin.

The bonus feature in Legacy of Egypt can be retrIGGERED, which often happens by landing two or more pyramids on any bonus spin. When this happens, you'll get more free spins (Pyramid Spins) and keep the multiplier active on the triggering spin. You can win even more Pyramid Spins by landing two or more scatters on any free spin. I love to play this game and have often gotten over 50 free spins, and sometimes even with a 10x multiplier – definitely one of the best online slots out there.

Book of Dead is one of the most legendary slot releases by Play'n GO. This is a 5-reel, 3-row slot game that allows you to explore the deepest secrets of Egypt's pyramids. It features HD graphics, and thanks to the fact that it utilizes the latest HTML5 technology, the Book of Dead slot is fully optimized for use on all Android and iOS devices.

There are a total of 10 adjustable paylines in Book of Dead, and they reward players from the leftmost to the rightmost reel. Additionally, Book of Dead has 10 regular symbols, and players need to land at least 3 to trigger a win. The low end is represented by 10, J, Q, K, and A, which are known as Royals.

The high end is represented by the bluebird, Anubis, the pharaoh, and the explorer. A Wild symbol, which substitutes regular symbols, is also featured. There is one bonus feature in the Book of Dead, which is Free Spins. To trigger it, players must land 3 or more Scattered Books. In this case, they will receive 10 Free Spins where you have a chance to get all the 5 reels filled with Expanding symbols. The free spins can be retrIGGERED multiple times under the free spin round.

Bets in Book of Dead vary between a minimum of \$/£0.01, and \$/£100, the volatility rate of this slot is high, and the maximum jackpot payout is set at 5,000x the stake. The RTP rate is 96.2%.

As the winner of the best slot machine in 2017, Guns N' Roses certainly has to be on this list, and once you have played this NetEnt masterpiece while rocking to the sound of the world-famous tunes written and produced by the iconic rock band, you will see why this slot is an award-winner.

Popular due to great graphics, lucrative features, and a rocking soundtrack, Guns N' Roses is one of those online slots that have to be tried at online casinos.

The reel format is 5-reels and 20 paylines, and there is an RTP of 96.98%. It also comes complete with fun features such as expanding wilds, free spins, multipliers, wild symbols, scatter symbols, a bonus wheel, and a hugely entertaining bonus game. Whether you love the rock band or not, there is no doubt in our minds that you will enjoy the highly addictive action that it provides.

Why not play the best paying online slot machine with an impressive 99% RTP. Book of 99 is a new excellent slot release by Relax Gaming, and this Greek-themed slot game will allow you to explore the deepest mysteries of the tombs as you go on a quest for treasures. Once you access the game, you will spot a grid that contains 5 reels and 3 rows. Book of 99 is fully optimized for mobile and desktop use, which means that you can enjoy it on any Android and iOS device as well.

The most prominent feature that Book of 99 has is its Return To Player. The RTP rate of this slot by Relax Gaming is 99%, which is quite astonishing. Not only that, but it does have a few fun bonus features. The first one is the Free Spins feature, in which you will be rewarded with 10 Free Spins if you land at least 3 Scatter symbols. The free spins can be retrIGGERED. One random symbol is chosen as an expanding symbol during the Free Spins.

The Wild symbol in the Book of 99 has two purposes. First, it can replace regular symbols, but it also fills up the Collection meter. Each time a Wild is landed, the Collection meter increases by 1 step. The Free Spins feature is also triggered when the meter is filled to 99.

Book of 99 has 9 fixed pay-lines, and you can bet between a minimum of \$/£0.10 and a maximum of \$/£100. Once you've set the bet, all that is left is to spin the wheel. I have played this online slot machine a lot, and it pays back a lot more than other online slots. Book of 99 will definitely become a player's favourite.

Planet of the Apes is another excellent slot from the NetEnt. Having been given the license to release a slot based on the popular movie franchise, NetEnt has once again churned out something of fantastic quality.

Featuring dual-reels of 5-reels and 20 paylines apiece, one for each of the first two movies, Rise of the Planet of the Apes and Dawn of the Planet of the Apes, this unique feature-packed slot is already proving hugely popular among online casino players.

Containing some of the best graphics and animations we have ever seen to date on an online video slot, Planet of the Apes has an RTP of 96.33%.

In addition, it offers medium to high volatility, which means you can expect some very handsome payouts. Furthermore, complete with bonus features such as free spins, stacked wilds, scatter symbols and a bonus game for each of the two movies, there are plenty of different ways for you to bring in the wins.

A firm favourite among high-rollers, Jack and the Beanstalk, is an older online slot still going strong at the online casinos. Popular due to a very high variance, which means a long time between payouts, which is usually huge when they arrive. You can see why players with big budgets love taking their chances on this NetEnt classic.

With 5-reels, 20 paylines, an RTP of 96.30% and features such as free spins, scatter symbols, expanding wilds, walking wilds, and a bonus game, this beautifully animated 3D video slot has more than enough to keep most players interested. Despite being around for some time now, you will still find hordes of players enjoying it at the online casinos.

Themed around that fantasy-based fairy-tale that we all remember as children, Jack and the Beanstalk, this slot has the complete package when it comes to video slots. Who knows, perhaps the magic beans could lead you to some 'giants' in terms of payouts.

Having been released by ELK Studios at the end of 2016, Wild Toro has been earning rave reviews from many players at the online casinos. As a medium to high variance slot, Wild Toro is known for the big payouts that it can be dishing out.

The jackpot on this online slot is a staggering 2,250x the total bet placed, and when you consider that you can bet as much as \$100.00 per spin, you are talking about a potential payout of \$225,000. That is not to be sniffed at, right?.

Even if you don't manage to take down that whopping jackpot, you still have the potential to find some other great payouts via a bunch of game features like walking wilds, wild symbols, and re-spins.

As Wild Toro is a modern slot, you can also ensure that the graphics are all in HD and the animations are sublime. You can also be sure that this

slot has been designed with mobile technology in mind, playable on almost any device capable of connecting to the internet and streaming games.

If you were to ask any players that have been playing online slots frequently for many years to name five of the best slots of all time, we would bet that the majority of them would name Gonzo's Quest by NetEnt among those five.

The Gonzo's Quest slot machine launched in 2010, the 20-pay line slot carries an RTP of 96.00%, and it has cascading reels, which means the symbols all fall into place from above. When wins are created, those winning symbols will disappear, and more symbols from above will fall into the spaces that were vacated.

That cascading feature can bring in multiple payouts after each spin as the new symbols drop into place, but there are also multipliers that are attached to the rewards above the reels. After each consecutive win due to the cascading tiles, this multiplier increases by one, which means there is some good potential for big wins. Other bonus features on Gonzo's Quest include free spins, wild symbols, and scatter symbols.

Ted is another popular online slot that has hit the online casinos in the last few years, and there is an apparent reason why it is so popular. Bonus rounds – probably the most we have ever seen in an online slot.

Developed by Blueprint Gaming, Ted is the online slot adaption of the hilarious movie of the same name about a talking teddy bear called Ted. With an RTP of 95.81% and a low to medium variance, you can expect some fast-paced action on this 5-reel, 20 pay line online slot, and you will soon see that there is never a dull moment to be had.

When you land three scatter symbols on your reels, five different unlockable bonus rounds are unlocked. Every time you unlock the bonus round, you automatically move up to the next one, so you will need to unlock it five times to see all of them.
