

3rd International Conference on “**ADVANCED TECHNOLOGIES FOR INDUSTRIAL POLLUTION CONTROL (ATIPC-2022)**” will be organized in Hybrid mode by the Civil Engineering Department of Indian Institute of Engineering Science and Technology, Shibpur during 21st – 23rd December, 2022. The conference is oriented to create an effective forum for the environmental scientists, engineers, technologist and the industry persons for sharing their research initiatives and real-life experience through online presentation of the technical papers on relevant focus themes.

Extended Abstracts in given format are invited from Academicians, Scientists, Engineers and Research scholars in the allied field of industrial pollution control. Such Abstracts should be formatted in MS-Word in A4 sheet clearly mentioning name and contact mail of all the contributing authors. The Template is available in the official website of the Conference, <https://atipc.in>. EXTENDED ABSTRACTS SHOULD BE SUBMITTED THROUGH ONLINE SYSTEM AVAILABLE IN THE CONFERENCE WEBSITE.

Extended Abstracts of all the accepted papers (*subject to Registration*) will be published in the Conference Proceedings Book with ISBN. The full version of the papers presented in technical sessions will be peer-reviewed and selected ones will be published in a SCOPUS Indexed Proceedings Book by a reputed International Publisher. There will be three “**Best-paper Awards**” for the 1st, 2nd and 3rd position in respect of total score of the presented papers. The detailed Brochure of the Conference is provided herewith for ready reference. All the information regarding ATIPC-2022 along with Templates of Extended Abstracts as well as Full-length papers and Form for submitting the Extended Abstracts are available in the official website of the Conference, <https://atipc.in>.
