**Online Education**

1. Does all programs/courses were completed on time.	No
--	----

2. Measures taken to complete the syllabus of courses and programs.	<p>At a time when the once reverberating classrooms across the world went silent due to pandemic conditions, it became necessary to continue with the teaching-learning process by using modern technology. Instructions of theory courses and project/thesis work were being disseminated through Google Classroom, and also using e-mail and different on-line facilities like YouTube, WhatsApp, etc. However, some students faced difficulty in receiving on-line instructions particularly when video conferencing was used. The students of this Institute come from a wide spectrum of geographical locations across the country, ranging from urban and suburban areas to remote places where internet connectivity is not always upto the desired strength. A few teachers were also initially not comfortable imparting instructions through on-line mode.</p> <p>Keeping the above problem in view, the Institute decided to create an on-line Central Repository in the Institute web server to supplement the ongoing online teaching-learning process. The faculty members populated the course materials including lecture notes, resource materials, assignments with instructions etc. in the repository of the Institute website. They further added every student registered in each course offered by him/her in the Even Semester of the 2019-'20 academic session. The system ensured the generation of automatic emails to the concerned students with log-in details, and the students of the respective class could access the materials through their login.</p> <p>This enabled the students in remote areas, who are unable to join on-line classes in real-time due to network speed or bandwidth problem, to access and download course materials from the repository during the time of the day when the connectivity was stable and robust, and read them offline afterward. Later, pre-recorded audio and video lectures delivered by the faculties were added to the repository. Some of the faculty members added video lecture-cum-demonstration of practical experiments, specially prepared by themselves for conducting virtual laboratories.</p> <p>In accordance with the pre-pandemic academic calendar, mid-semester examinations for Even Semesters of the 2020-'21 academic session had been already completed in the last week of February 2020; hence, only end-semester examinations were conducted centrally in real-time using on-line mode. The practical classes were completed through on-line mode. The examinations of all practical subjects, project thesis and viva-voce were conducted in on-line mode using Google Meet and other platforms.</p> <p>From the next academic semester, the Institute provided each faculty member and registered student a personal G-suite Account to further upgrade the on-line teaching-learning process. The issues of data security, data protection and data confidentiality, which were thought to be a little compromised earlier, were thus addressed.</p> <p>As it requires some extra time for the students and faculties to adjust to the above-stated new mode of the teaching-learning process, extra contact periods were allotted for the completion of syllabi of different on-line courses. For example, three-credit courses that are allotted 3 contact periods for instruction in the syllabi of various programs were allotted 4 contact periods in the new routine. This, however, created a small delay in the completion of syllabi and examinations.</p>
